

USEFUL INFORMATION

HOW TO SELECT A TYRE

Tyre size and maximum speed of the vehicle.
The maximum load capacity per axle (Load index).
Your style driving and road condition.

MOUNTING & DISMOUNTING

Only get qualified people to mount or dismount your tyres.

TYRE PRESSURE

For safe and economical driving, it is extremely important to drive with the correct tyre pressure.

CHECK THE FOLLOWING ITEMS REGULARLY

Tread Pattern

Unusual wear, tread groove separation, bulges.. etc.

Sidewall

Impact, Bulges, Ozone cracking, vehicle contact damage etc.

Tyre Pressure

To safeguard against any pressure lost during driving.

MAXTREK
CAR TYRES

MAXTREK CAR TYRES

- Produced by a major passenger tyre manufacturer based in the South of China.
- Tyres produced in this factory are already sold in over 40 countries worldwide.
- Design engineering from Europe, using the most up to date design technology available.
- State of the art manufacturing facility, only opened in 2007, including a full R&D centre.
- All sizes are DOT and ECE certified, and come with full coverage of Product Liability Insurance.
- Over 60 sizes available now, with another 40 sizes scheduled for released in 2009.
- Exclusive distribution arrangements available.
- Direct factory programme, ensuring continuity of supply.

Ingens A1

- Adopting a 5-Pitch combination, which helps the directional blocks achieve high speed performance.
- Solid central circumferential rib and multi edge design for high speed stability.
- Computer simulated analysis ensures reductions inroad noise when travelling.
- Four high void circumferential main grooves provide excellent traction, even on wet roads.

SU-830

- Symmetrical pattern specifically designed for medium class vehicles and higher.
- Economically efficient due to good wear resistance and reductions in fuel consumption.
- A balanced tread design provides excellent ride comfort.
- Excellent water drainage on wet roads as a result of the use of four straight grooves.
